Helmet Inspection

On the subject of daily/periodical inspection of helmets, Bell Racing recommends the following:

Users should visually inspect helmets prior to use for hairline fractures and deep scratches and also assure that the inside lining is in good shape and the strap is fully functional.

If helmet has been dropped or has been subjected to any impact, or if there is any doubt of the structural condition of your helmet, Bell Racing will inspect the helmet at no charge and forward results to user. To request helmet inspection, send helmet to:

Bell Racing
Attn: Customer Service
116 E. Neal Dr.
Rantoul, Ill, 61860
1-800-237-2700

Please enclose a note requesting inspection and supply your name, phone number and return address.

Bell Racing also recommends that helmets be replaced every five years. Upon purchase of a new helmet, the old helmet must be returned to the Flat Rock Test Facility (track manager or test site coordinators) for disposal.
